## ***Les Vignerons d'Alignan du Vent***

Located in the heart of the widest vineyard in the world, La cave d'Alignan combines tradition and modernity, first throughout its various terroirs but also with its parcel selection and wine making process.

Under the Mediterranean climate, the terroir beneficiates of a strong wind coming from the North. This dry wind is a real protection for the vines.

Moreover, they take advantage of a favorable exposure and this enables a slow grape maturity.
